

# Pettys Reserve upgrade

## Community update - April 2020

### RESERVE UPGRADE WORKS UNDERWAY

Works to improve the recreation and soccer facilities at Pettys Reserve are now underway. This major upgrade will include synthetic soccer pitches with floodlights, a pavilion including modular change rooms and multipurpose room, public restrooms, a spectator area, an asphalt car park, a new playground and landscaping.

Pettys Reserve was identified in the Eastern Soccer Strategy 2008 and the Football Victoria State Football Facilities Strategy 2018 as having the potential to meet the increased participation rates for Manningham soccer clubs. The upgrade, including purpose built facilities aim to help cater for the current and future growth of the sport.

The \$8.6 million project to upgrade the reserve will complete the final stage of Pettys Reserve Development Plan and will include:

- Installation of synthetic playing surfaces on two full sized soccer pitches
- New 8 metre protective netting behind soccer goals to contain soccer balls
- Environmentally sustainable LED sports field floodlights
- A new pavilion with modular change rooms, unisex facilities and an 80 to 90m<sup>2</sup> multipurpose space
- Upgrade to public facilities with two unisex restrooms
- A play space
- Upgrade to the existing car park by applying an asphalt surface to 130 car spaces, and an area of overflow for a further 60 car spaces
- Extensive landscaping within the reserve.
